QUALITY AND ENVIRONMENTAL POLICY	Sheet 1 de 1
	Ed.: 2 Date: 20/10/14

As executive committee of IC Associates, we are very sensible and responsible about the importance that quality and environment have now days and how the activities we carry out may affect both. For this reason, we commit to behaving respectfully with the environment as well as rendering our services within the highest quality with the aim of satisfying our client's requests.

IC & Associates Quality and Environmental Management Policy is what lead us toward the full quality control in our process of waste management, recycling and emissions, within our means and what direct us to develop our activities, causing the less damage and minimizing the impact into the environment, in the next future.

To ensure the performance of our Policy, we have established a quality Management System, based on the requirements of the current regulations UNE EN ISO 9001 and UNE EN ISO 14001

The policy Quality and Environmental Management of IC & Associates, is based on the following commitments:

1. To fulfill all the requirements, whatever is its nature (legal, contractual or any other), to be applied according to our activities, both in the field of the scope of our services or in the environmental sphere of our activities, so that our performance never will contravene the specifications and legal requirements established by the Public Administrations.
2. To carry out our works, within a management standards in order to guarantee the ongoing improvement in our processes, methods and relations with all the parties, through the establishment and periodic review of our goals in terms of quality and environment.
3. To protect the environment by putting into practice proceedings and measures oriented to prevent any kind of pollution that might be produced during our activities.
4. To promote a proper understanding and widely spread of our Policy within our Organization by developing courses and training for our staff.
5. To control effectively all our processes, remarking the followings:
 - Relation with Clients and Public Administrations.
 - To fulfill with our Client's requests.
 - To keep our equipments and machinery within the best working conditions meeting all the environmental requirement.
 - Recycling and selective collecting of our own waste materials.
6. To put at public disposal, mainly to clients and public Administrations, our Quality and Environmental Policy, for their knowledge:

Seville, october 20, 2014

Alberto Miro
 General Manager
